

Rediscovering the Passion, Beauty, Joy, and Awe: Making Computing Fun Again, part 3

Orit Hazzan

**Department of Education in Technology and
Science**

Technion - Israel Institute of Technology

Historical perspective

Software development projects can be fun, productive, and even daring. Yet they can consistently deliver value to a business and remain under control. (Beck, 2000)

- 1968: Douglas T. Ross, the first “special project course”, MIT
- 1970s: Peter Freeman, project courses, U. of California, Irvine

Change the teaching methods in a way that reflects the work at the software industry!
